EXPERIENCE

Web Developer and Design Intern (05/23-Present)

Oasis Infobyte

- Designed interfaces from scratch adhering to given guidelines
- Made frontend using ReactJS based on the interfaces
- Using express and Mongo DB handled the backend and Database integration

PROJECTS

GitHub Users(01/2022 – 03/2022)

- Developers can search GitHub Profiles with the Username and check all the stats in charts and Graphical representation
- Stats include followers, most popular repository and Used Languages etc.
- The Project is implemented in React JS, Auth-0 and Material UI

GoChat (10/2022 -12/2022)

- Developed an android application for one to one Text chatting
- Users registered can talk to any one registered on the application
- Authentication and database is done using Firebase
- The app is made with Kotlin in Android Studio + Firebase

EDUCATION

Graduation

Manav Rachna University , B.Tech - CSE

09/2020- Current Semester / CGPA-8.27

Senior Secondary(12th Std)

DAV Public School , Sec-49 , FBD

2019 / 76.4 %

SKILLS

Language: Java, JavaScript, C++

Development: ReactJS, NodeJS, Redux , HTML ,CSS

Database: MongoDB, Firebase

Others: Data Structures, Algorithms, Git

CERTIFICATIONS

JavaScript (May 2023) by Infosys Springboard

Completed a 15 hours course

Learnings: Event Handling , DOM , Async programming etc.

Java Programming Fundamentals (Nov 2021) by Infosys Springboard

Completed a 36 hours course

Learnings: Basic fundamentals of java , OOPS, Collection framework etc.

RESEARCH

Creative Domain of Blockchain : NFT

Published (Jan 2023) : MRCN, Springer

Learnings: Learnt and implemented fundamentals of blockchain, designed and created an app for NFT market in Ethereum blockchain

ACHIEVEMENTS

Solved 600+ problems on LeetCode with max rating of 1508 (Top 40%) (Jan 2022-Present)

3 star at CodeChef , max rating 1662 (2022)

Second position in She-a-thon event hosted by IEEE ,MRU (2021)
